The National Safety Team has completed the on-line Intermediate ORM Course. The course is made up of PowerPoint slides followed by a 20 question on-line test. The course and test may be accessed by going to the ORM link on the National Safety web page at   http:/ /members.gocivilairpatrol.com/safety/
.

This course was designed for Senior Mission Base personnel and FRO's; however it is open for all CAP members to gain a better understanding of what is required for ORM mission base management.

It is recommended that the following members complete this course:

Incident Commander, Agency Liaison,   Operations Section Chief, Planning Section Chief, Logistics Section   Chief, Finance / Administration Section Chief, Air Operations Branch Director, Ground Branch Director and Flight Release   Officers.

This course will be followed up by the Executive Level Course designed for Commanders, and an Advanced Level ORM for those that would like more information to hone their skills. These courses are in final preparation and should be on-line in the next few weeks.

Regards,
Lyle E. Letteer, Jr., Col, CAP
National Safety Officer
